

Shadowall™ Wall System

Combine striking exterior aesthetics with enhanced energy efficiency

The Shadowall™ wall system is ideal for creating architecturally pleasing exteriors, particularly in instances where energy efficiency inside is a key concern. The system features unique design elements that enhance thermal performance and accommodate added insulation.

Choose the smooth, clean lines of the Shadowall system to add beauty and lifecycle cost savings in applications such as distribution centers, warehouses, and office complexes.

Create A Uniform Appearance

The Shadowall system is designed with a unique curved profile that creates uniform lines for striking beauty. The fasteners are recessed deep in the panel corrugation to further enhance the system's uniform appearance.

Use Fewer Fasteners

The Shadowall system is designed to require up to 33% fewer fasteners than most ribbed panels. In addition to lowering installation costs, this also results in reduced heat loss through the wall for enhanced thermal performance.

Add Even More Energy Efficiency

The Butlerib II EX and Shadowall EX wall systems use the high-quality Butler-Cote™ premium finish. Comprised of a 70-percent Kynar 500® or Hylar 5000® resin, this incredibly durable Fluoropon® coating holds a 25-year warranty against blistering, peeling, cracking, or chipping of the paint finish.

Assure Fast And Accurate Installation

Each Shadowall system panel and supporting structure can be factory punched for greater speed and precision in the installation process. Accurate installation leads to long-term building performance.

Enhance Window And Door Installation

Predesigned and factory-fabricated transition materials assure that windows and doors fit precisely with the Shadowall panels. To enhance energy efficiency, a window frame with a thermal break is also available.

Compare Our Warranty

All Shadowall panels feature the high-quality Butler-Cote™ premium finish. Made with a 70 percent Kynar 500® or Hylar 5000® resin, this incredibly durable fluoropolymer coating carries a 25-year finish warranty against blistering, peeling, cracking or chipping of the paint finish.

The Butler Difference

Butler Builders provide complete construction services with single-source responsibility

- Reputable professionals with extensive knowledge of local building codes

Maximize your building's performance with a complete Butler® system solution

- Innovative structural, wall and roof systems
- Precision-engineered for seamless integration

Key Benefits

- Panel design creates uniform lines for striking beauty
- Up to 33% fewer fasteners lowers installation costs and reduces heat loss
- Accommodates 6 inches of blanket insulation for enhanced energy efficiency
- Transition pieces allow for precise window and door installation
- Superior-performing Butler-Cote™ 25-year fluoropolymer finish resists chalking and fading
- Recessed fasteners enhance panel appearance
